*Trenton's Long-range
Comprehensive Master Plan*

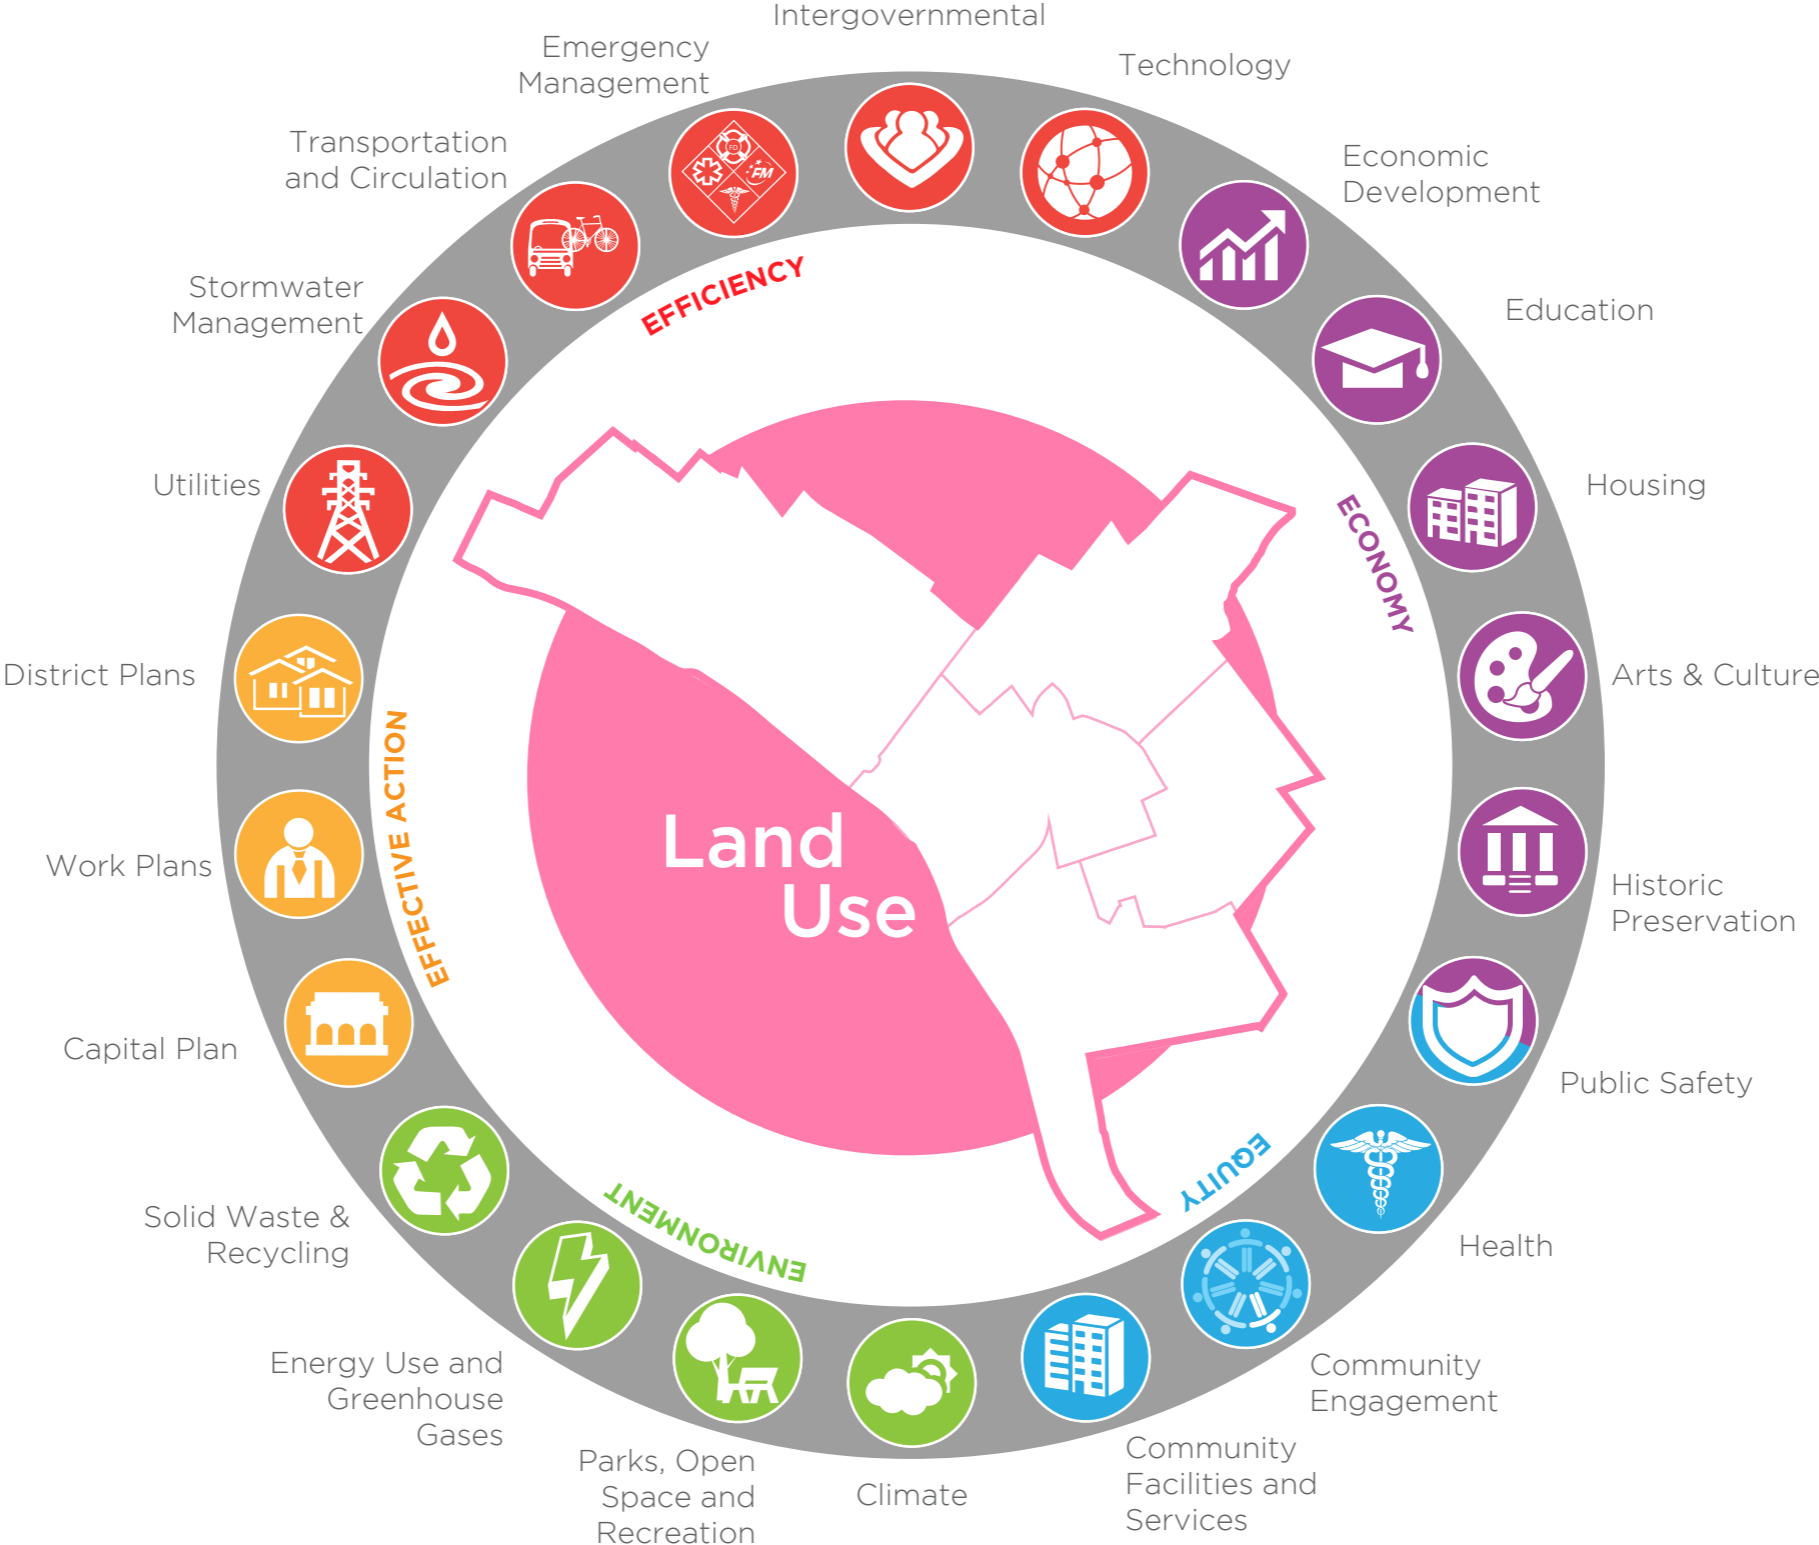

DVRPC Public Participation Task Force

Creating a Long-Range Framework

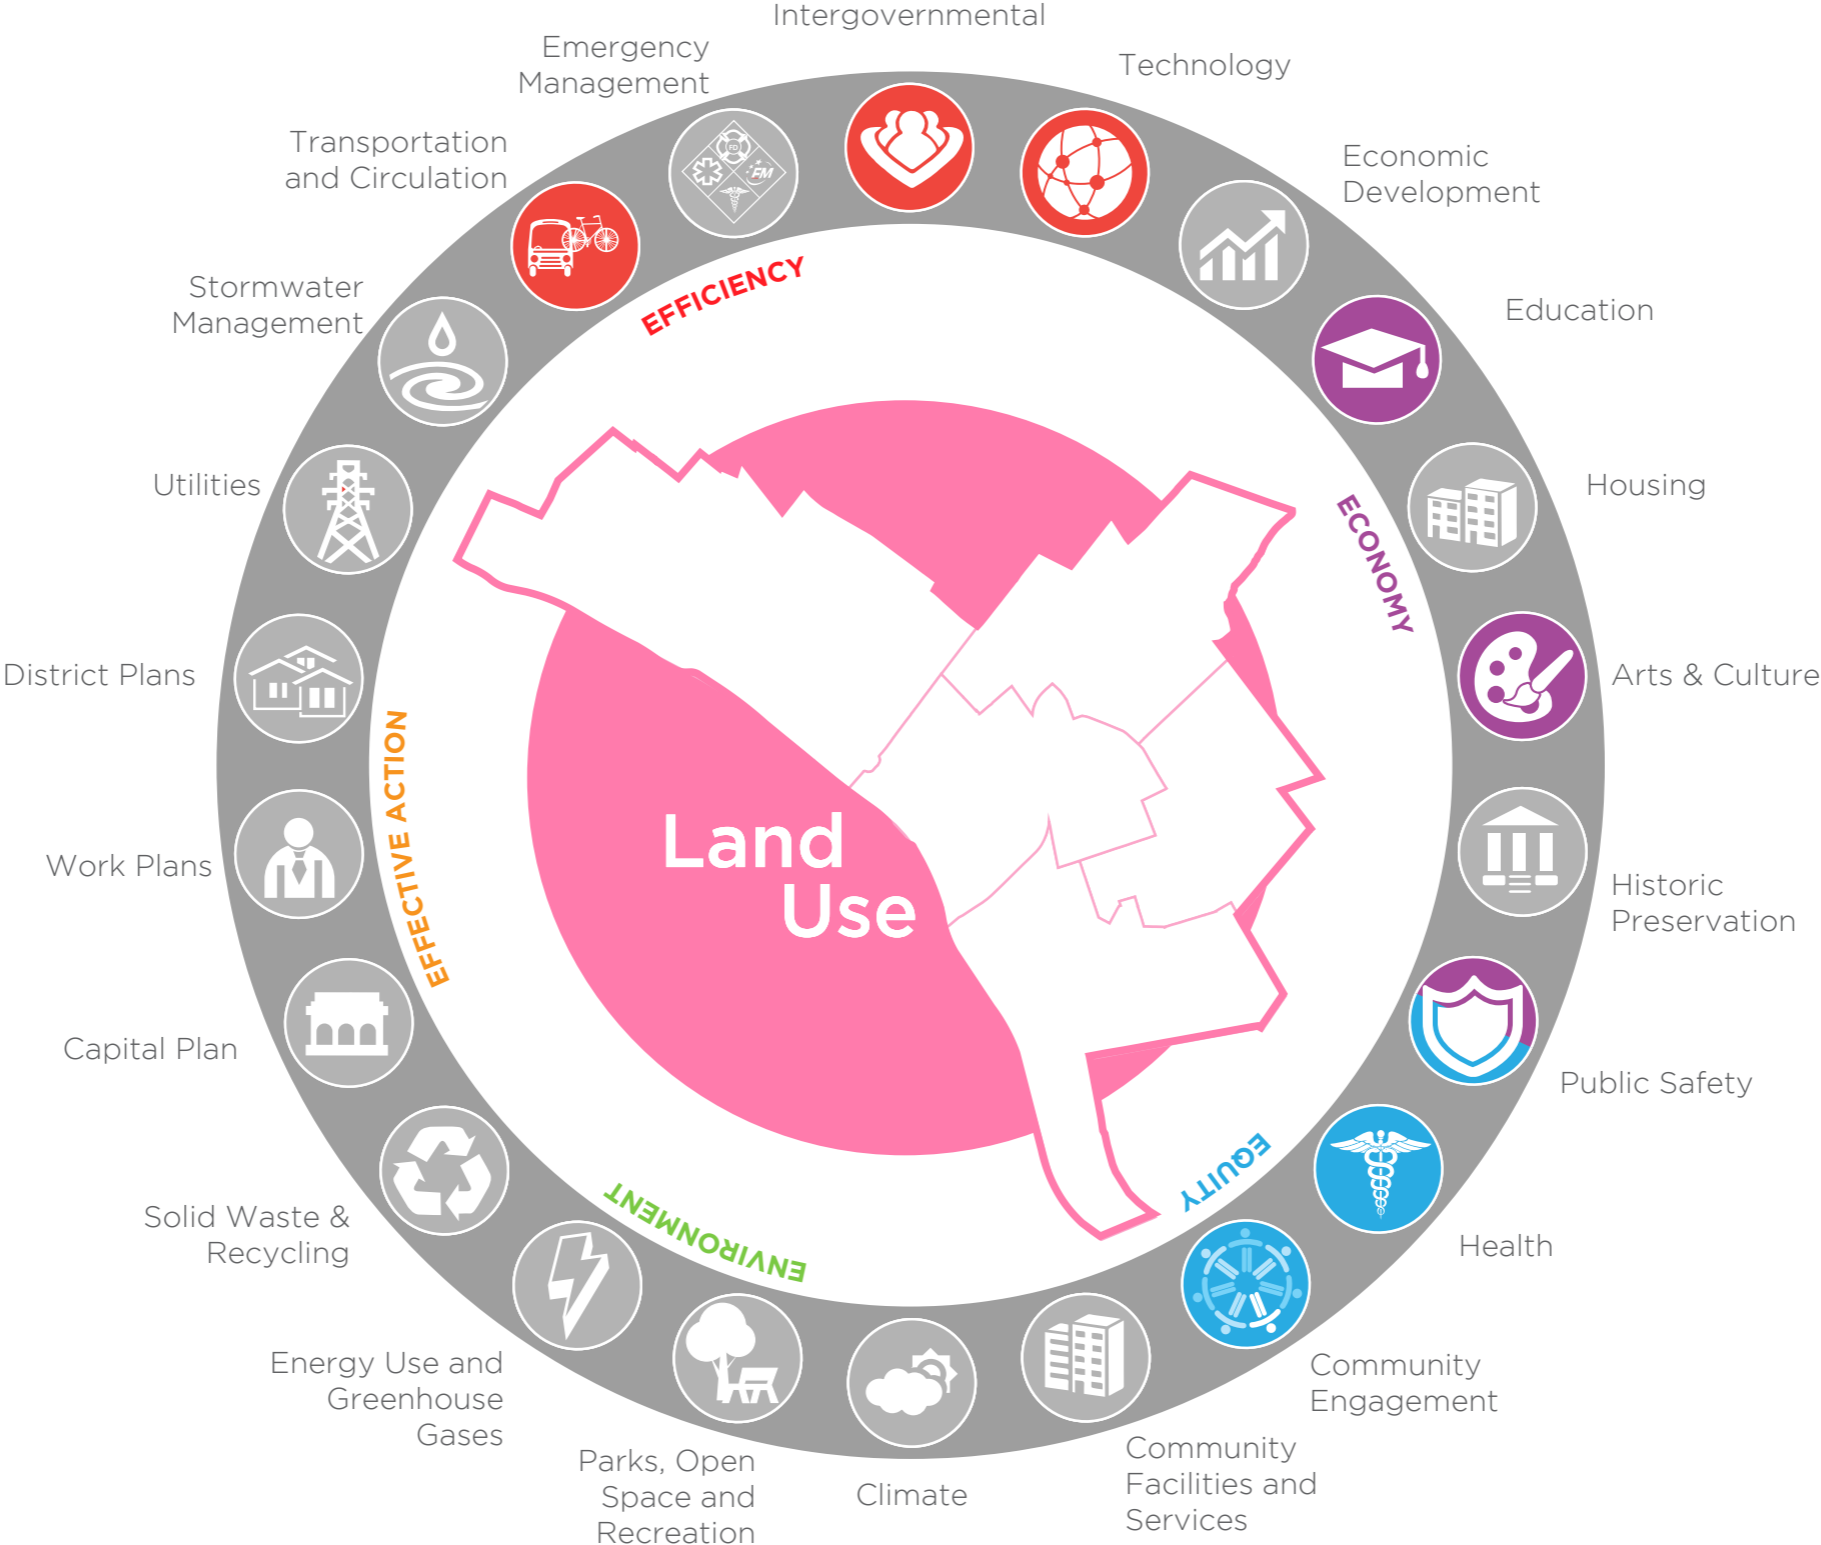

- Planning Board Approval of a Comprehensive Approach
- Community Listening Tour
- City Council Pass Resolution of Acknowledgment

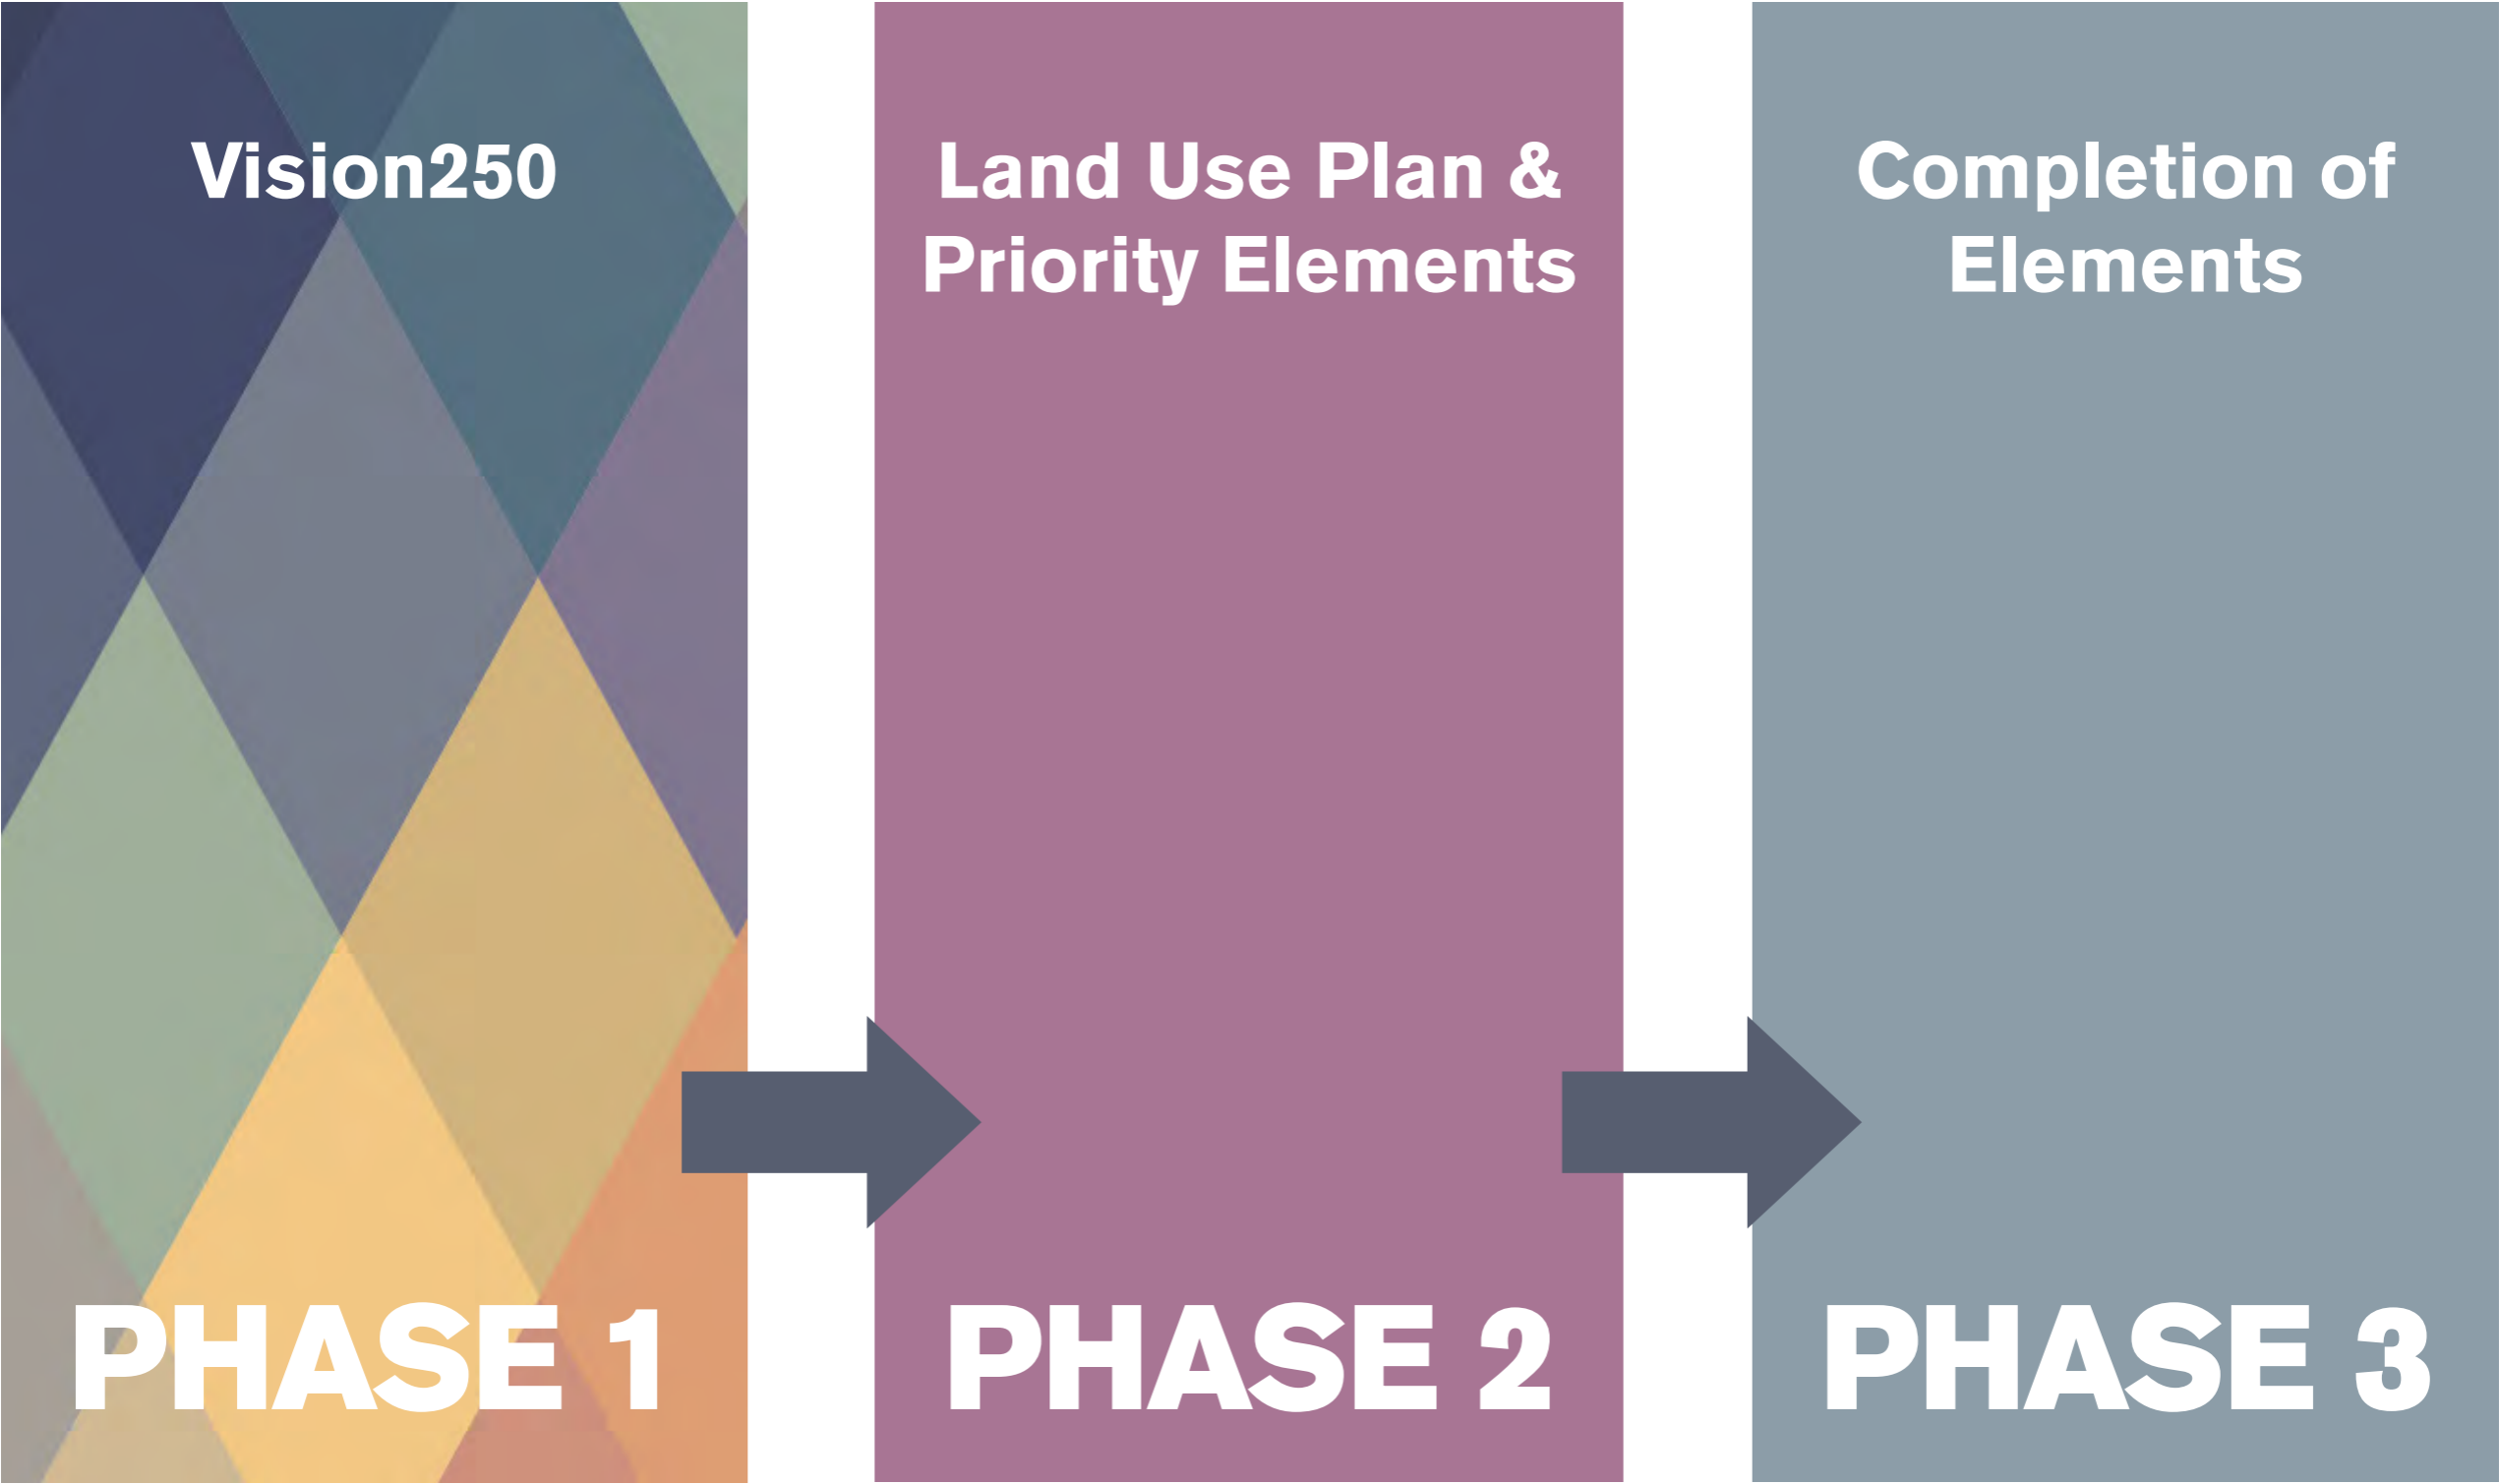

The Framework

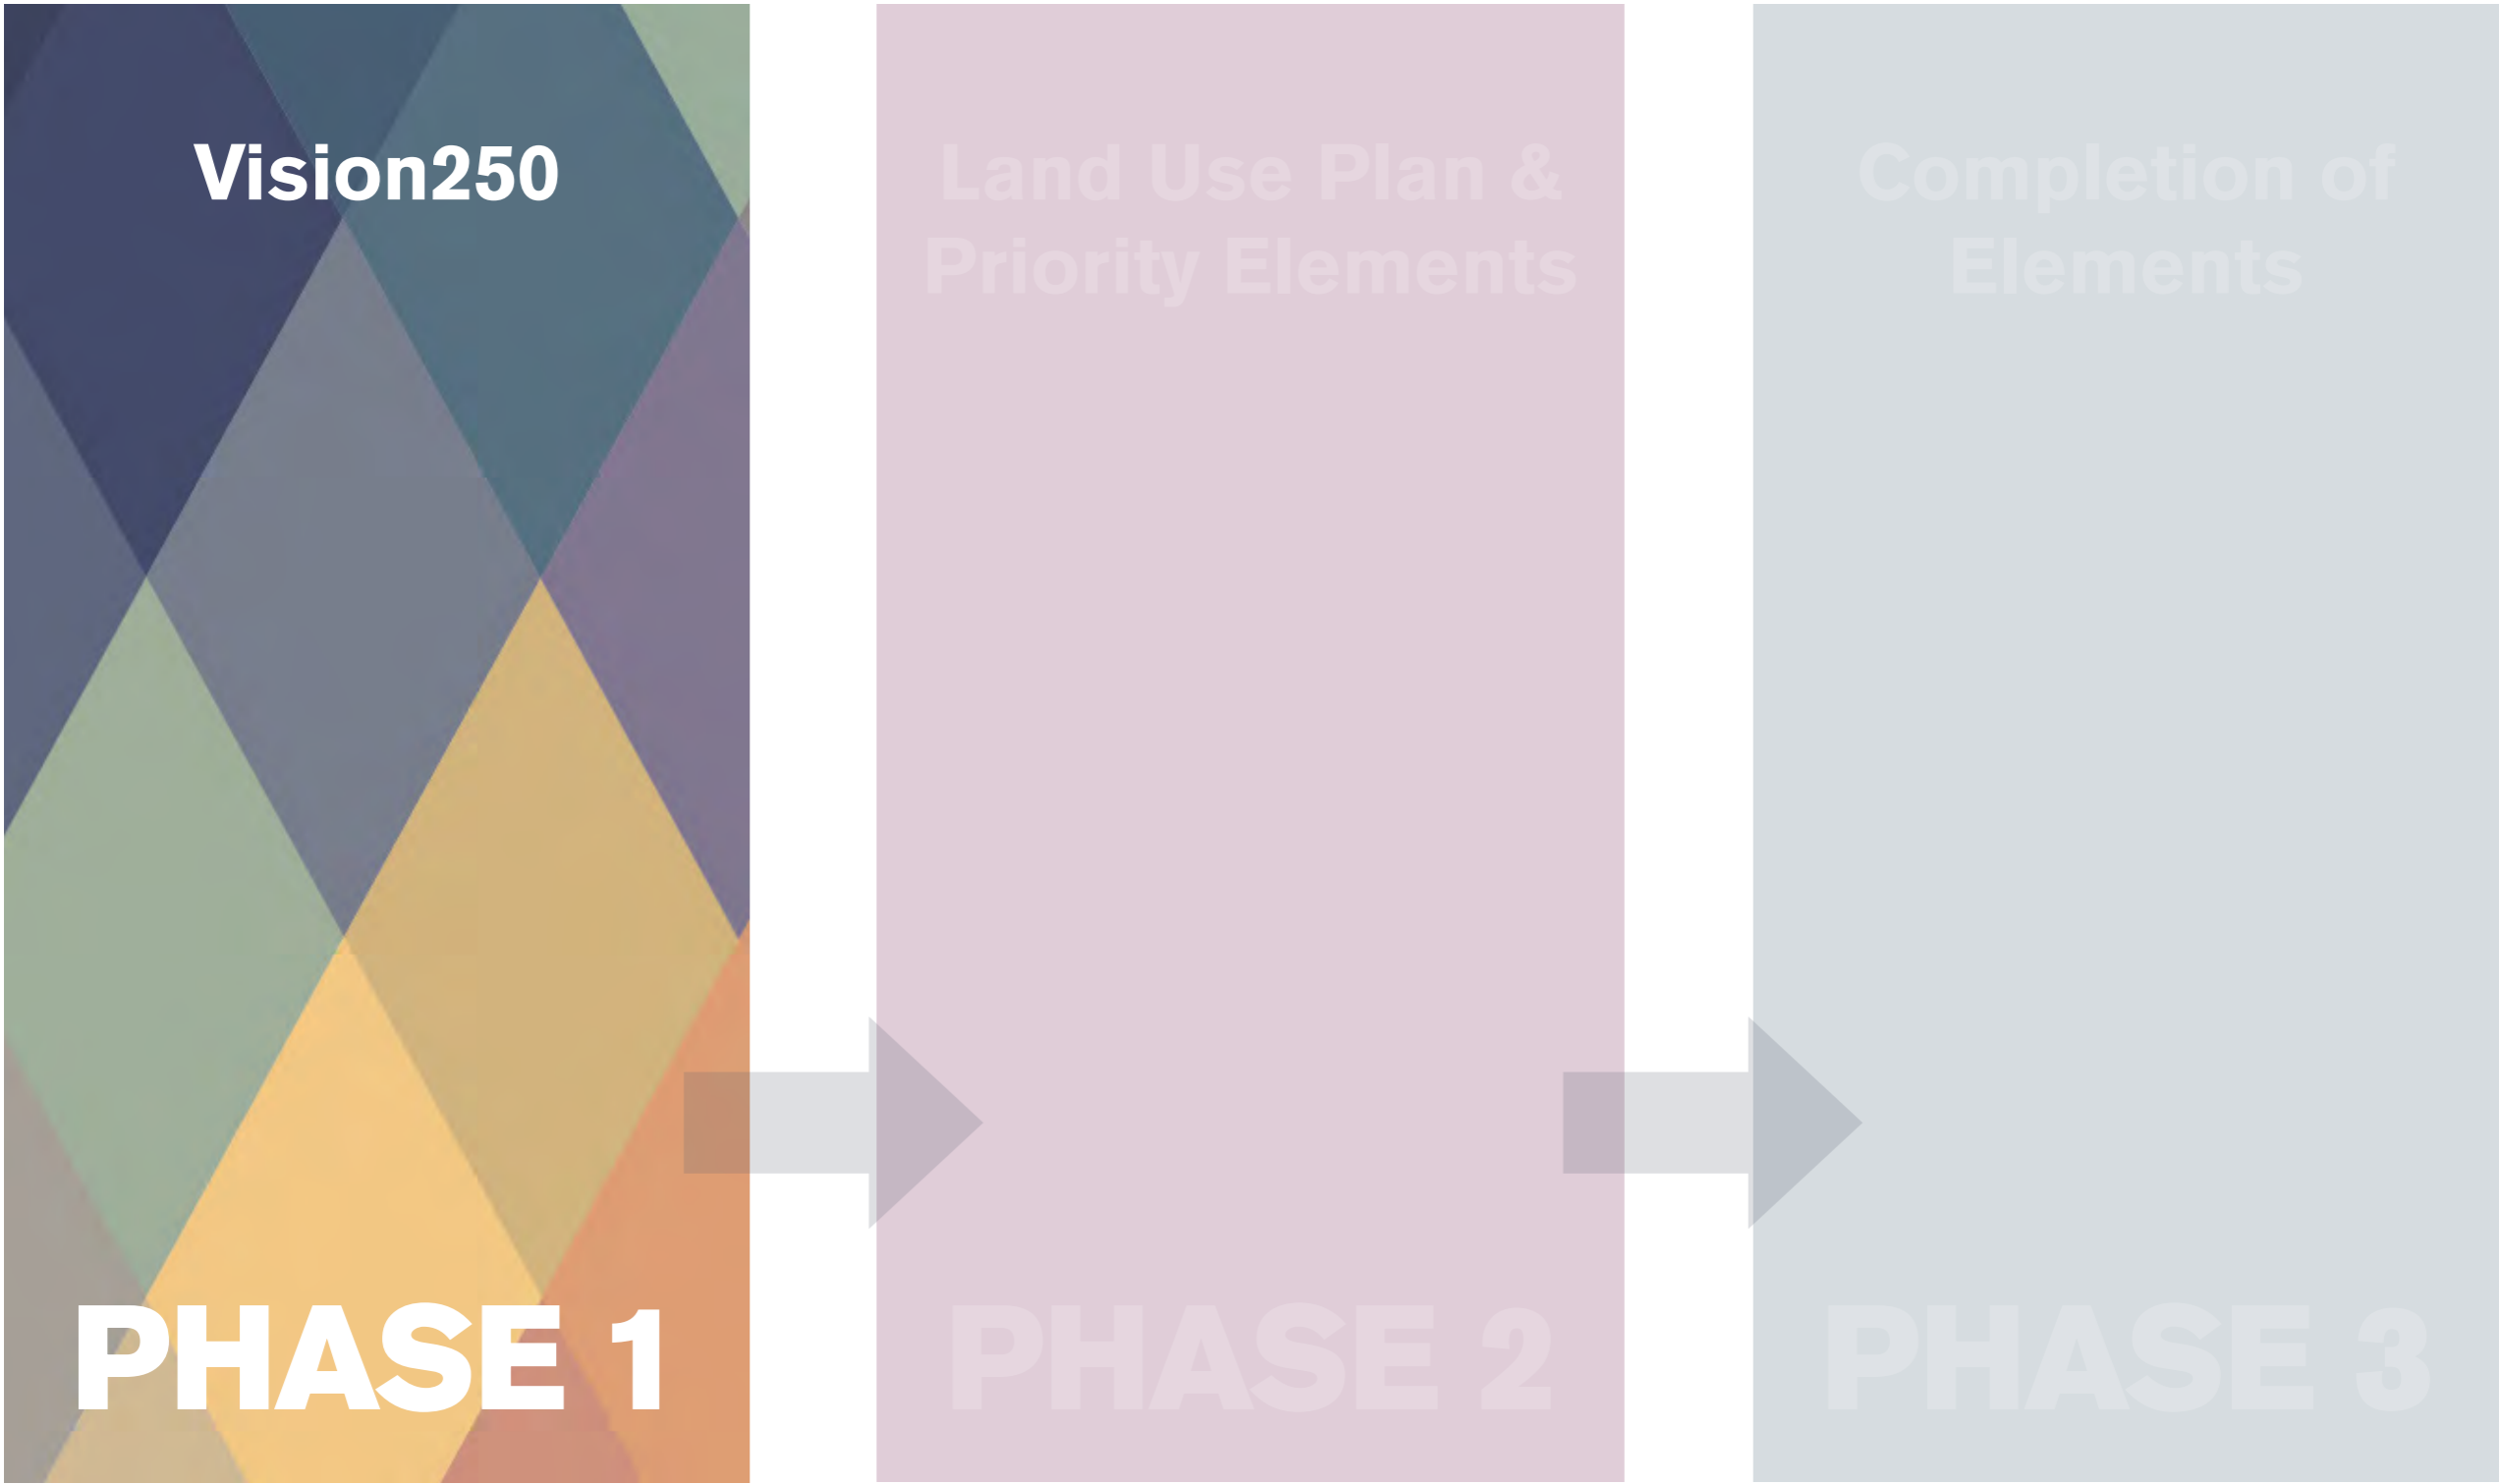

The Framework: Public Additions

Plan Development Phase

Plan Development Phase

Project Goals (Abbreviated)

Create consensus around a community-driven vision for Trenton

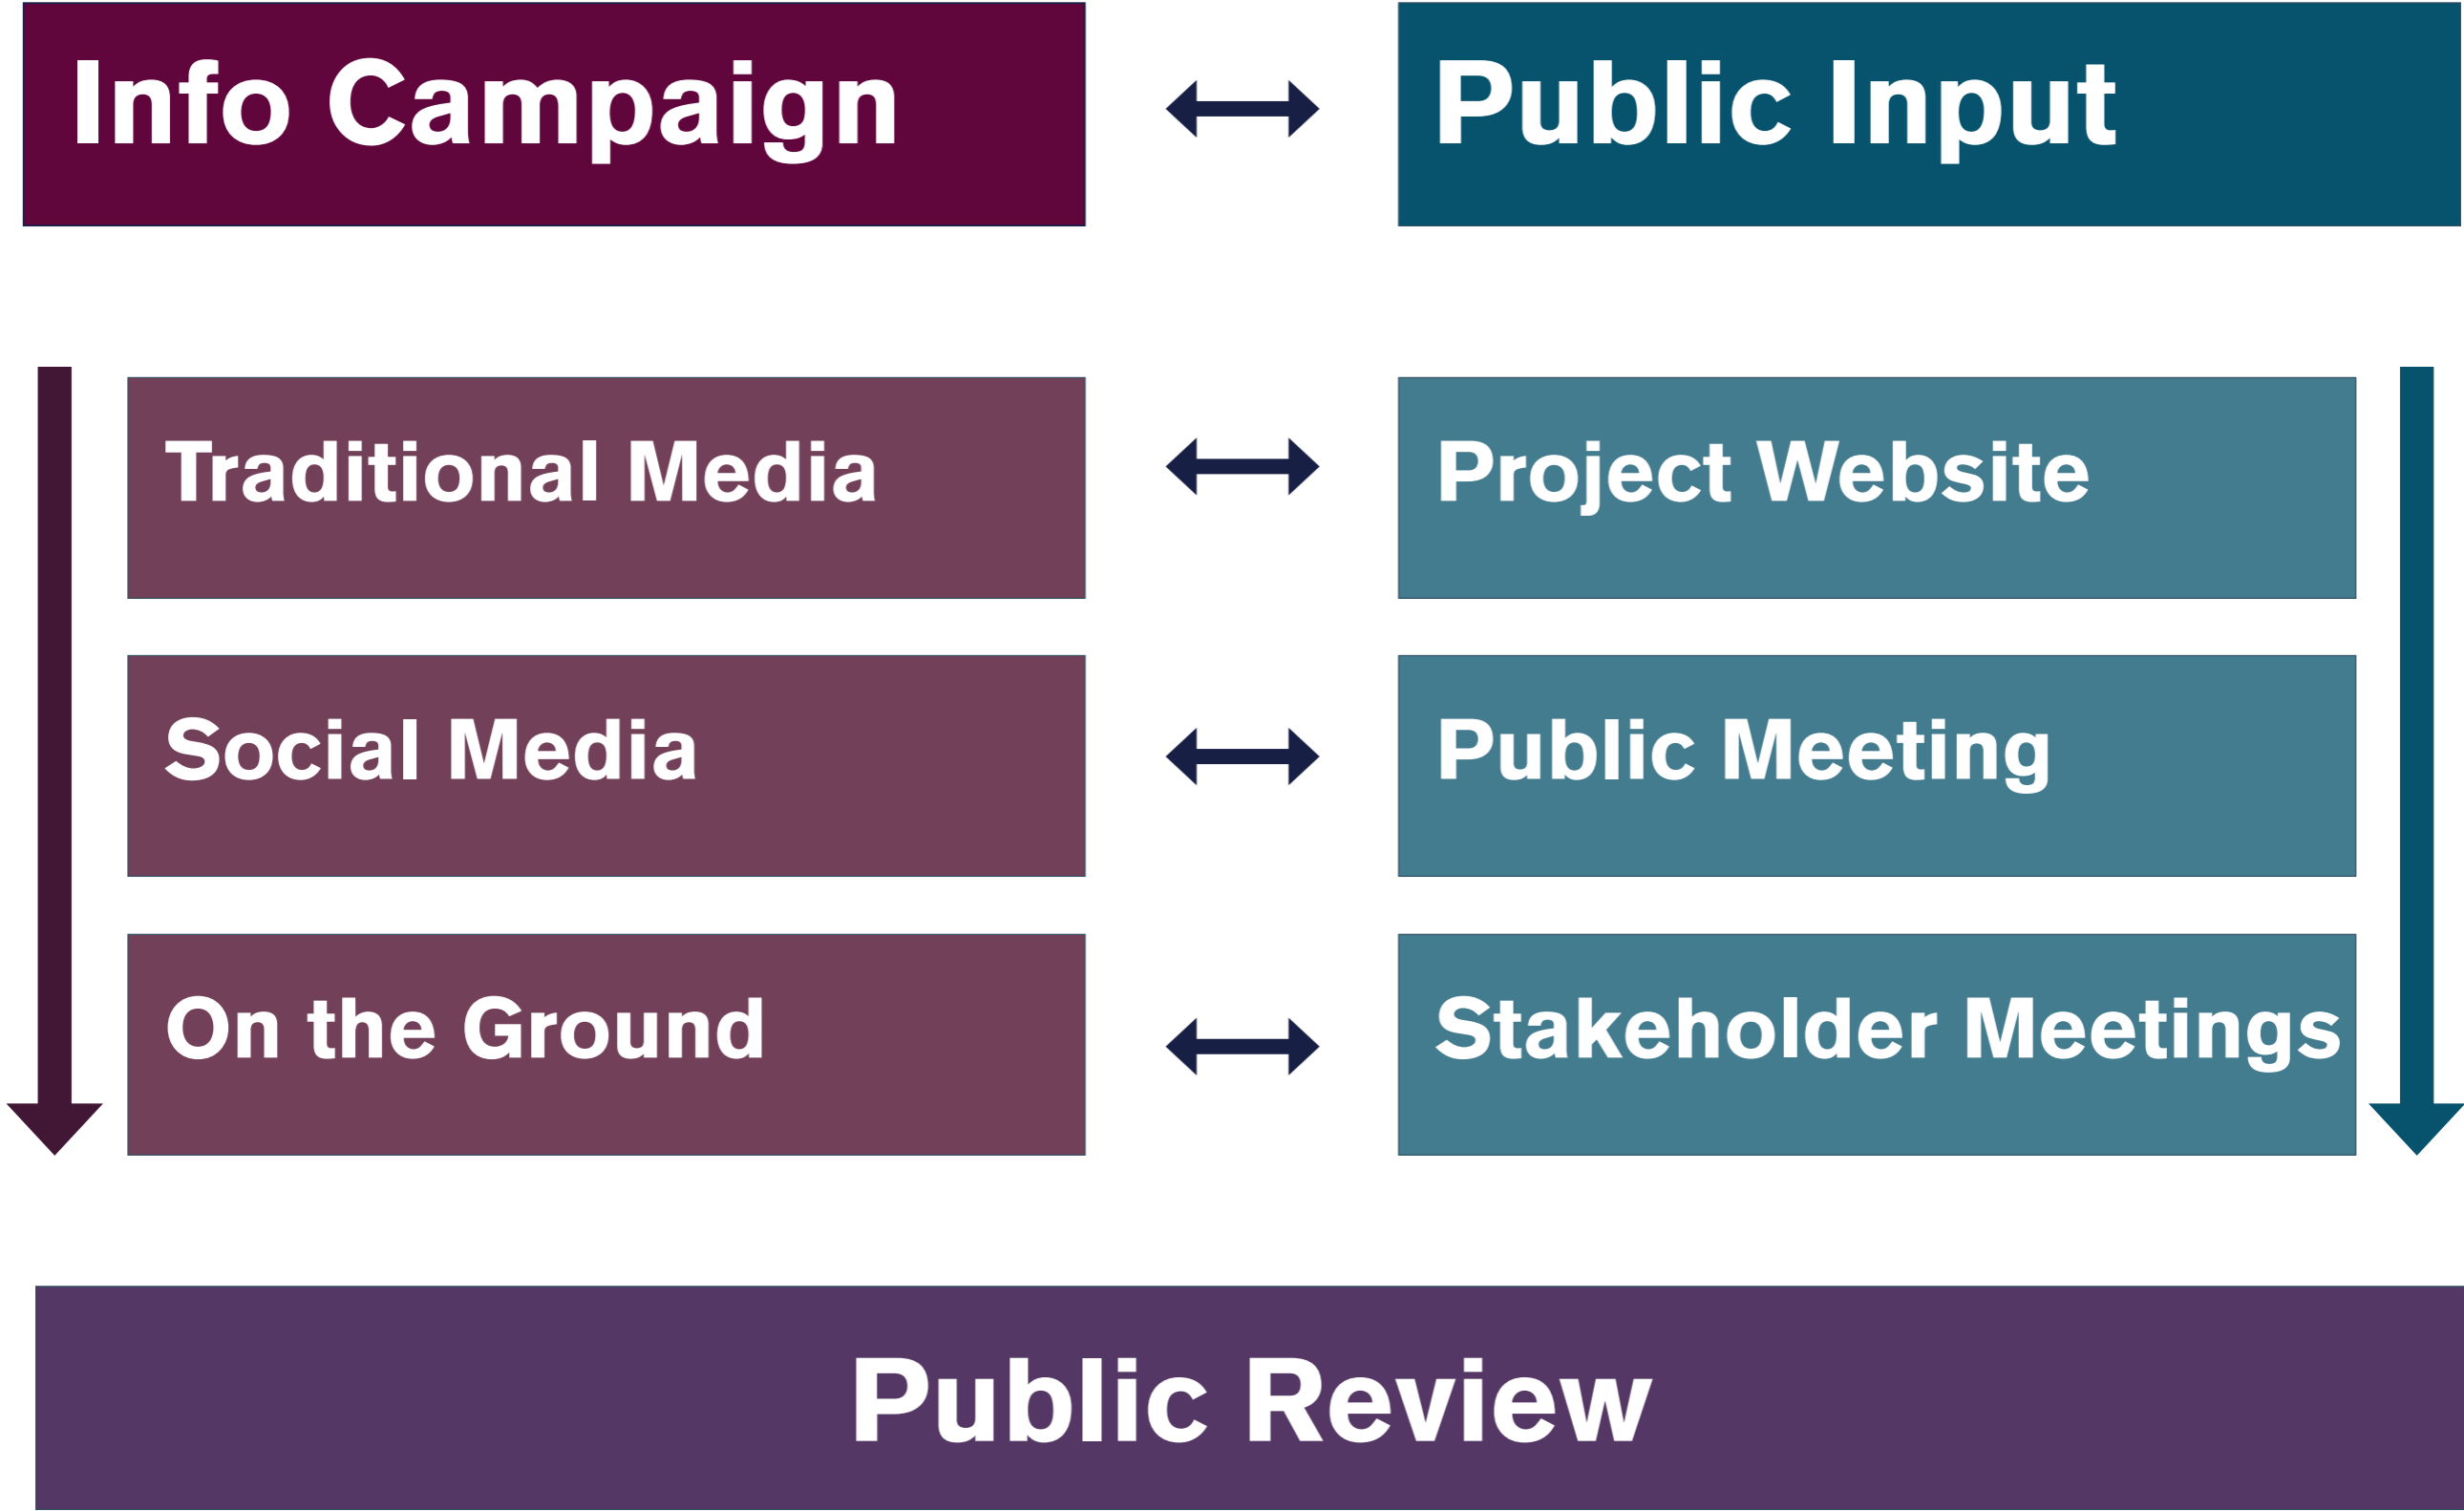

Expand participation to include those who do not traditionally get involved in civic visioning activities

Include the large and expanding Spanish speaking (Latino) community

Promote and Educate about Trenton250 and Master Planning

Background: real disconnect between City Hall and the population of Trenton

Phase I Visioning Approach

Traditional Media

Revising Trenton's Master Plan

Trenton Mayor Eric Jackson, left, waves to a member of the audience at the Trenton Chapter of the Mid-Jersey Chamber of Commerce Trenton Economic Development Breakfast held at the Wyndham Garden Hotel in Trenton on Wednesday, July 15, 2014. Chamber President Robert Puvell is at right. (Michael Mancuso/The Times)

Thursday, July 17, 2014

TRENTON — Placing orange dots on a chart, local business owners overwhelmingly identified the need for a reduction in crime in Trenton as one of the ways they believe that the city can improve economic development at a breakfast event for the Mid-Jersey Jersey Chamber of Commerce this morning.

Along with public safety, they also pointed to improving education, encouraging arts and related attractions and growing downtown businesses and residents. The feedback will be used by employees of the officials of the city's Department of Economic Development as they revise the city's master plan in a program called Trenton 250, which was touted as an important tool for shaping the future of Trenton in a speech by newly elected Mayor Eric Jackson.

The Times

Trenton's good is being marshalled to rout out the bad and the ugly

Chamber President Robert Puvell is at right. (Michael Mancuso/The Times)

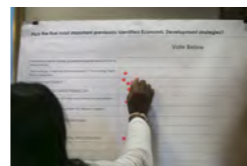

Thursday, July 24, 2014

Animated by thousands of state workers during the week, the city of Trenton becomes eerily still on the weekends.

For decades, the city has faced the daunting challenges of encouraging state workers to stay in the city after 5 p.m. and ensuring enough traffic to keep shops, cafes and other business ventures from atrophy.

The Times

Opinion: Help map capital city's future with Trenton250

(Michael Mancuso/The Times)

Times Op-Ed

Thursday, July 17, 2014

By Monique King-Viehland

As the new Acting Director of the Department of Housing and Economic Development for the City of Trenton, I encourage readers to participate in Trenton250 (Trenton250.org), the city's first comprehensive Master Plan.

Through a "community visioning" phase and proposed thematic elements to the plan (such as economic development, housing, education, land use, arts and culture and transportation), the official city Master Plan attempts to answer a very important question: What should Trenton be like in 10, 20 and 30 years?

How we as a community answer this question will have long-term implications for the city, its citizens and its businesses. For example, the vision and goals established in the

Accomplishments

9 Print and Online Newspaper Adds

1 Radio Interview

Lessons Learned

You can not get started early enough establishing contacts

Utilize Opinion, Letter to the Editor, and the Editorial Board

Traditional Media is still effective means for informing citizens

Social Media

The screenshot shows the Facebook profile for 'Trenton Master Plan'. The cover photo is a street scene in Trenton with a 'TRENTON 250' logo overlaid. The profile has 1,045 friends. A recent post by Shakira Abdul-Ali asks for feedback on the 'TRENTON250 VISION ELEMENT' draft. The post includes a call to action: 'Comment. Evaluate. Shape Trenton's Future.' and a link to 'Trenton250.ORG/vision/'. The page also features an 'ABOUT' section with location information and a 'PHOTOS' section with three images.

Accomplishments

1000+ Friends on Facebook

100+ Friends on Twitter

30+ Friends on Twitter

Lessons Learned

Must start with the social media campaign early

Facebook is BY FAR the most widely used social media site

Expect a limited number of people to be online champions

Effective means of reaching a broader audience

You can get email address of your facebook friends

On-the-Ground

Accomplishments

Art All Night (300+ Vision Statements)

Pork Roll Festival (Big website turnout)

Chalkboards (Unknown)

Lessons Learned

Face-to-face conversations are most effective

Be prepared with literature and a “next step” after event

Be visible, fun, and creative but don't let activity distract from main mission: informing people

Have a means of measuring success

Monitoring Effectiveness: Google Analytics

Lessons Learned

Broad numbers

Demographic data is generally hard to substantiate

Effective when combined with "context" information

Monitoring Effectiveness: Goo.gl

Project Website

Accomplishments

2000+ Unique Users

500 with Trenton ISP

500 in surrounding Area

1/2 of Users “Under 34”

~150 surveys taken

60+ comments on blog

40+ images submitted in Contest

22 SWOCs were identified

Lessons Learned

Digital divide makes the website an effective tool only for certain residents / users. Websites will likely be most effective in places with higher education attainment levels and a more professional workforce.

Must have partners / efforts to drive traffic to the website

Must understand the effort that is required to contribute vs. passively interact with the website. Understand this may **increase** the “loudest voice gets the most attention” phenomenon.

1% Rule: “90% of the participants of a community only view content, 9% of the participants edit content, and 1% of the participants actively create new content.”

Websites are very fertile ground for outreach efforts and the potential is immense.

Public Meetings: Youth Summit

Accomplishments

200 Participants

50 Visions

100s of SWOCs (aka SWOTs)

Lessons Learned

Utilize existing institutions

Youth are VERY in tuned with issues and opportunities in their communities

Working with younger communities builds credibility

Public Meetings: Latino / Spanish Speaking

Accomplishments

200 Participants

50 Visions

100s of SWOCs (aka SWOTs)

Lessons Learned

Utilize existing institutions

Allow for extra time to disseminate information

Community is had some unique concerns but overwhelmingly address similar issues as other groups

Dedication to multi-lingual efforts is more expensive / time consuming

Public Meetings: Ward

Accomplishments

89 people attended public meetings

11 small-group consensus visions + goals and SWOCs

Lessons Learned

Go to them

Promote through existing community leaders

Understand the importance of space: scout out locations and be prepared to adjust efforts accordingly

Stakeholder Meetings (Aka “Stakeholder Forums”)

Accomplishments

110 people attended stakeholder meetings

80 goals and 300 votes

Lessons Learned

When scheduling, balance what information they can provide with their roll in generating support

Promote through existing institutions

Use keynote speakers as a means of generating an audience

Organize around themes

Building Capacity

important: The Master Plan will take **YEARS** to finish

Developed a list with ~700 contacts (email and phone) of people who participated or expressed interest in the Master Plan (1000+ facebook friends)

Strengthened the network of people who can facilitate participation in future elements

Greatly enhanced the profile of the Master Plan and understanding about how it will affect the development of the City of Trenton

Welcome to *PhillyFreightFinder*, the freight mapping and data platform for the Delaware Valley!

PhillyFreightFinder is a dynamic, web-based mapping application that pinpoints freight facilities and freight activity in the Philadelphia-Camden-Trenton region. In addition, this tool also highlights how the various freight system components intertwine and complement one another.

PhillyFreightFinder contains 20 individual layers and over 350 features of infrastructure and facilities that are organized into seven categories. These elements form the core of the region's extraordinary freight network and services that link the region to the global economy.

PhillyFreightFinder is fully customizable, giving you-the user, the ability to easily control both the extent of the mapping window and the combination of layers to be displayed.

The Delaware Valley Region

The PhillyFreightFinder application covers Bucks, Chester, Delaware, Montgomery and Philadelphia counties in Pennsylvania, and Burlington, Camden, Gloucester and Mercer counties in New Jersey.

This region contains an impressive freight transportation network consisting of highways, rail lines, ports, airports, and pipelines. There are also many related support facilities such as warehouses, manufacturing sites, rail yards, and truck stops.

The Delaware Valley is strategically positioned in the middle of the densest population center in the United States. Over 100 million people live within a 500-mile radius of Philadelphia, representing a vast consumer base and making the region ideally situated as a manufacturing and distribution hub.
