FY2017 TIP for Pennsylvania (FY2017-2020)

dvrpc
DELAWARE VALLEY
REGIONAL
PLANNING COMMISSION

The Delaware Valley Regional Planning Commission is dedicated to uniting the region's elected officials, planning professionals and the public with a common vision of making a great region even greater. Shaping the way we live, work and play, DVRPC builds consensus on improving transportation, promoting smart growth, protecting the environment and enhancing the economy.

We serve a diverse region of nine counties: Bucks, Chester, Delaware, Montgomery and Philadelphia in Pennsylvania; and Burlington, Camden, Gloucester and Mercer in New Jersey. DVRPC is the federally designated Metropolitan Planning Organization for the Greater Philadelphia Region - leading the way to a better future.

FIGURES AND TABLES

HIGHLIGHTS FOR THE DELAWARE VALLEY REGIONAL PLANNING COMMISSION FY2017 TIP FOR PENNSYLVANIA

The Delaware Valley Regional Planning Commission (DVRPC) Fiscal Year (FY) 2017 Transportation Improvement Program (TIP) for Pennsylvania, which covers the counties of Bucks, Chester, Delaware, Montgomery, and Philadelphia in Pennsylvania, is available for the public. DVRPC prepares a major update to the Pennsylvania TIP every other year to coincide with the update of Pennsylvania Department of Transportation's fiscally constrained statewide Twelve-Year Program.

DVRPC's mission is to proactively shape a comprehensive vision for the region's future growth. The agency does so by: providing technical assistance and services; conducting high priority studies that respond to the requests and demands of member states and local governments; fostering cooperation among various constituencies to forge a consensus on diverse regional issues; determining and meeting the needs of the private sector; and continuing public outreach efforts that promote two-way communication and enhance public awareness of regional issues and DVRPC.

WHAT IS THE TIP?

By way of congressional mandate, federal transportation legislation requires that DVRPC, as the Metropolitan Planning Organization (MPO) for the region, develop and update a Transportation Improvement Program or TIP in order for the region to be eligible to receive and spend federal transportation funds.

The TIP lists all transportation projects that intend to use federal funds, as well as state-funded capital projects that are transportation improvement priorities for this region. It is a multimodal, four year program that shows estimated costs and schedules by project phase. Most importantly, the TIP is financially constrained to the amount of funds that are expected to be available. In order to add projects to the TIP, others must be deferred, or additional funding to the region must be identified. As a result, the TIP is not a "wish list;" competition between projects for a spot on the TIP clearly exists. The TIP not only lists specific projects, but also documents the anticipated schedule and cost for each project phase (preliminary engineering, final design, right-of-way acquisition, utility, and construction). Although it is not a final schedule of project implementation, inclusion of a project phase in the TIP means that it is seriously expected to be implemented during the TIP time period.

The production of the TIP is the culmination of the transportation planning process and represents a consensus among state and regional officials as to what near term improvements to pursue. Consensus is crucial because the federal and state governments want assurances that

all interested parties have participated in developing the priorities before committing significant sums of money. A project's inclusion in the TIP signifies regional agreement on the priority of the project and establishes eligibility for federal funding.

The TIP is a requirement of federal transportation legislation, most recently, the Fixing America's Surface Transportation Act (FAST Act), or Public Law (P.L.) 114-94. The FAST Act was signed into law on December 4, 2015 and will expire on September 30, 2020. The FAST Act is the first federal law in over ten years to provide long-term certainty for surface transportation funding, after multiple extensions of the Moving Ahead for Progress in the 21st Century Act (MAP-21) which began on October 1, 2012 and originally was set to expire on September 31, 2014. The FAST Act built on the initiatives established in MAP-21, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), the Transportation Equity Act for the 21st Century (TEA-21), and the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). Transportation investment has been prescribed in a balanced approach through a guaranteed commitment to highways and bridges, public transit, safety, intermodal projects, and advanced technologies, such as Intelligent Transportation Systems.

PROGRAM SUMMARIES

The DVRPC FY2017 TIP for Pennsylvania contains almost 450 projects (including the Interstate Management Program), totaling over $5.3 billion for the phases to be advanced during the next four years, an average of over $1.32 billion per year. Programmed funds include $2 billion for projects primarily addressing the non-interstate highway system, and $578 million for projects addressing the Interstate Management Program, resulting in an overall four-year total for the Highway Program of over $2.5 billion. Additionally, there is a $2.8 billion Transit Program for the Southeastern Pennsylvania Transportation Authority (SEPTA), Pottstown Area Rapid Transit (PART), and the Pennsylvania Department of Transportation (PennDOT) Bureau of Public Transit. Table 1 presents a funding summary for the DVRPC region by county and transit operator for each of the four TIP years in Pennsylvania, which includes federal, state, local and the Pennsylvania Statewide Interstate Management Program (IMP) funding for the DVRPC region. Tables 2 and 3 provide a breakdown of various state and federal funding sources and their distributions, including local matches.

Table 1: Cost Summary by County and Transit Operator in Pennsylvania ($000):

MAPPING APPLICATION AND LISTINGS OVERVIEW

MAPPING APPLICATION AND GEOGRAPHIC INFORMATION SYSTEMS

For the first time, the TIP will not contain printed static maps in the document. Due to the ever-changing nature of the TIP, the maps are out-of-date by the time the TIP is printed and distributed. For this reason, DVRPC suggests using the TIP Web Search Tool, www.dvrpc.org/TIP, as the primary mapping function to show the location of mappable projects for the highway, transit, and Interstate projects.

Different types of projects, such as intersection improvements, bridge replacements, or transit facilities, are shown using various colors and symbols in the TIP Web Search Tool. Certain types of projects, such as roadway landscaping, lease payments for the use of railroad tracks, or preliminary studies, are not mapped. These projects are listed in a drop-down list under the heading "TIP Projects Not Mapped."

The TIP Web Search Tool has been enhanced to include more robust data sets. Overlays of Planning Centers, Freight Centers, CMP Corridors, Indicators of Potential Disadvantage (IPD), as well as a "search by address or location" function have been added. To go along with the more robust TIP Web Search Tool, DVRPC has made TIP Geographic Information System (GIS) data available as well. GIS is an important planning tool that supports state, regional, county, and local planning and technical efforts. Nearly all planning activities incorporate GIS technology, whether it is for data collection and storage, or analysis and presentation. GIS allows planners to view and query spatial data, perform advanced analysis to discover relationships, patterns, and trends, and effectively present information to decision-makers and the public.

Downloadable GIS point, line and polygon location features for TIP projects in the current adopted Pennsylvania and New Jersey TIPs, as well as formal TIP Actions that the DVRPC RTC and Board approve are available via the Transportation section of DVRPC's GIS Data webpage, www.dvrpc.org/Mapping/Data. This webpage also contains links to DVRPC's *GIS Portal*, interactive maps, a map gallery, in addition to other data resources. The *GIS Portal* contains boundaries, demographic, planning, and transportation data which is helpful for obtaining data that provides context for the Transportation Improvement Program.

DVRPC REGIONAL HIGHWAY AND TRANSIT PROGRAMS

This document includes various project listings. The project listings include the Pennsylvania Highway, Transit, and Interstate Management Programs.

The project listings are grouped by county and transit operator. Tables 5 through 12 include highway projects for Bucks, Chester, Delaware, and Montgomery counties; the City of Philadelphia; and a listing of projects that apply to more than one county. Table 13 includes transit projects for PennDOT's BPT, SEPTA, and PART. Finally, Table 14 includes the Interstate Management Program (IMP). Within

each county grouping, individual highway and transit projects are listed numerically by DOT ID number (MPMS).

Projects bolded are "**NEW**" to the TIP. **Projects bolded with an asterisk (*)** are "**NEW-B**" projects that have been "broken out of," or derived from, an existing TIP project. ***Projects bolded and italicized*** are projects indicated as "***RETURN***," which were previously programmed in a prior TIP, but through a variety of circumstances have returned to the FY2017 TIP. For full project descriptions, please see the Draft DVRPC FY2017 TIP for Pennsylvania at www.dvrpc.org/TIP/Draft/.

DVRPC encourages the public to provide comments about the TIP and specific projects to state, county, transit, and DVRPC staff through its ongoing public involvement process.

> **THE PUBLIC COMMENT PERIOD FOR THE DRAFT DVRPC FY2017 TIP FOR PENNSYLVANIA OPENED ON MAY 27, 2016 AND CLOSED ON JUNE 27, 2016 AT 5:00 P.M. (EST).**
>
> **COMMENTS WERE SUBMITTED ONLINE VIA THE TIP COMMENT/SEARCH/MAP APPLICATION AT**
> **www.dvrpc.org/asp/TIPsearch/2017/PA/**

Comments were also submitted in writing by mail: TIP Comments, c/o DVRPC Office of Communications and Engagement, 190 N. Independence Mall West, 8th Floor, Philadelphia, PA 19106; or faxed to "TIP Comments" at (215) 592-9125. Public comments were also accepted via email by way of the public_affairs@dvrpc.org email address.

A public meeting was held at DVRPC offices and web conferencing was available. Those interested in using this option to join the meeting were asked to register by June 17, 2016 by contacting (215) 592-1800 or public_affairs@dvrpc.org. Copies of the DVRPC FY2017 TIP for Pennsylvania are available for review on the DVRPC website at www.dvrpc.org/TIP/ , in print at the DVRPC Resource Center, and at a number of regional public libraries (see Table 16 on the next page).

Submitted comments are included as part of the official public record and are included in the final TIP document.

This Page Intentionally left Blank

Abstract: The Highlights for the DVRPC FY2017 Transportation Improvement Program (TIP) for Pennsylvania briefly describes the region's TIP as a federally required, multi-modal, four year constrained program of planned transportation infrastructure investment. It contains a summary listing of all transit, highway, bridge, bicycle, pedestrian, and freight related projects in DVRPC's Pennsylvania region which will seek federal funding in fiscal years (FY) 2017 to 2020. The Highlights document includes a financial summary of costs by county and by operator, as well as a section on commenting on the Draft DVRPC FY2017 TIP for Pennsylvania.
